

Gas Supply Charge

The Gas Supply Charge has decreased from 33.7551 cents per cubic metre ("¢/m³") to 30.3652 ¢/m³. This price is based on a forecast of market prices for the next 12 months. The forecast price is reviewed every three months and, if necessary, adjusted accordingly to reflect market changes. If our forecasts are over or under our actual costs, we reimburse or collect the difference from customers through gas cost adjustments.

There is a new Gas Cost Adjustment refund of 1.2088 ¢/m³ for the period January 1, 2009 through December 31, 2009. This refund combined with the Gas Supply Charge results in a new total effective Gas Supply rate of 29.1564 cents per cubic metre.

Enbridge Gas Distribution does not make a profit on the cost of natural gas. The price we charge is the same as our cost to purchase natural gas.

Delivery Charge

The Delivery Charge will decrease by approximately \$3 per year for a typical customer due to lower costs to transport natural gas to Ontario.
